

Date: March 31, 2020

From: Alberta Health Services

**Notice: Limiting Contractors/Vendors at AHS Facilities**

Attention: All Alberta Health Services Service Providers

---

**Limits on Use & Access of Contractors at AHS sites**

For the safety of our contractors' and vendors' staff, and our staff, patients and the public, AHS will limit the access and use of contractors and vendors at certain AHS, Capital Care and Covenant sites and some projects will be paused temporarily. The details are available [here](#). These include non-essential delivery services and facility maintenance, installation and repair projects such as clinic or departmental renovations, lighting retrofits, flooring replacements and other similar projects that have limited impact on patient care.

Work will continue for contractors/vendors providing essential services deemed necessary to treat patients and help limit COVID-19. We remind everyone entering AHS sites, they must follow the protocols established for AHS staff, including use of the online [COVID-19 Self-Assessment Tool for Healthcare Workers](#).

We value our relationship with our contractors and vendors and thank them for their understanding as we deal with this unprecedented event. We look forward to eventually resuming these projects.
